## "What is Coaching?"

A common question with no common answer!  
One of the core coaching beliefs, is that we are all different and what works for you doesn't necessarily work for me.

Holding that, I would say that coaching would be defined differently from one person to another;  
YET what is common between all is that Coaching makes TODAY and TOMORROW DIFFERENT from YESTERDAY!

Transformation happens to the whole of you!  
This transformation is not based on what the coach thinks or believes is right or best for you but rather it is based on what comes out of you; your unique inner resources, your creativity and your magnificence and the best use of that in order to reach the desired outcome.

A coaching relationship is a relationship between the coach and the coachee (client) that is designed in the most appropriate way to enable the coachee to move from where they are today and who they are to where they want to be and who do they want to become.

Co-Active Coaching is a holistic approach that works with the whole person, the being of the person as well as the doing; who they are as well as what they do.  
Co-Active Coaching works with the mental wellbeing, emotional wellbeing, physical wellbeing, and spiritual wellbeing of the person.
